# TagsOptimizator

Thank you all for downloading this package. I hope you find it useful. This package will help you find and organize your tags efficiently. To use it, go to Window / FearlessFox / FindWithTag. Once you open the window to search for the tags just click Find.

Once the search is finished, we can see one by one the objects that have that tag. We can move forward and backward by pressing the Next and Previus buttons.

I hope you enjoy the package.
